Lowden Resolution.
Whereas, the name of Col. Frank
O. Lowden, a resident of this dis-
trict, is being mentioned as an active
candidate for the republican nomi-
nation for Governor, and,
Whereas, his record as a member
of congress from this district was one

from Wyoming township, at a meet-

Central Committee at the Nachusa
Tavern last evening. Mr. Guffin read
the resolution and moved its adop-

was carried unanimously.

Enjoyable Evening.
Last night's session of the Repub-
lican County Central Committee was
in the form of a banquet given by the
Lee County Republican committee-
men and the county officers in honor
of the County Chairman, Attorney
Harry C. Warner, of Dixon. States
Attorney Harry Edwards presided as
toastmaster in a graceful and elo-
quent manner and his opening ad-
dress and tribute to Chairman War-
ner was very fitting and well re-
served.

Many speakers were heard from,
and the remarks of the various gen-
tlemen called upon by the toastmas-
ter entertained the banqueters for an
hour or so. Chairman Warner made
a very pleasant talk in response
to the remarks of Toastmaster Harry Ed-
wards, and Judge R. S. Farland, who
is a candidate to succeed himself on
the circuit bench of this district and

PLAN CHANGES AT PALMER RIFLE RANGE

MOVING TARGETS MAY BE IN-
STALLED—CO. G. USES
COURSE.

If the plans of the United States
army officers bears fruit, there will
be a large number of changes made
at the Camp Palmer range during
the coming summer. Captain Chas.
H. Danforth, who recently inspec-
ted the range, believes that it is suit-
able for the purpose of instructing
the militia under regular army
methods, although more room will
be needed to carry out the instruc-
tion thoroughly.

Unknown Targets.

Under the method which is con-
templated, in addition to the tar-
gets now in use, a new set will be in-
stalled which throw up various sized
targets at unknown distances. As
the men are thrown into line of
skirmishers, the enemy's skirmish-
ers also appear at various ranges.
For instance a man on horseback
will suddenly appear, gallop across a
small frontage and then disappear.
The head of a skirmisher appears,
then the full sized man, while the
same thing is true of the prone and
kneeling figures. As a result the
men will be educated in shooting at
practically the same sized and simi-
larly acting targets that they would
meet with in actual warfare.

The Camp Palmer range is used
by Companies E of Sterling, I of
Morrison and F of Dixon.

Mrs. Henry Brisco returned last
evening from a few days' visit with
relatives in Chicago.

Issue Warrants By Wholesale In Nelson Case

Palmer Withdraws Charge
Against Staples-But His
Wife Swears Complaints

H. O. Staples, the Northwestern
brakeman who was arrested at Nel-
son on a charge of larceny, Friday
afternoon, just as he was ready to
leave on his run for Peoria, was ar-
raigned in Justice Grover Gehan's
court today at 11 a. m. for prelimi-
nary hearing. The warrant had been
sworn out by George Palmer, prop-
rietor of a pool room at Nelson, and he
charged the defendant with the theft
of a watch belonging to him. In tak-
ing testimony this morning Staples
claimed Palmer owed him \$7.15 and
he had simply taken the watch as se-
curity for the money he alleged was
due him. Palmer withdrew the charge
and Staples was discharged from cus-
tody. He was re-arrested on a war-
rant sworn out by Mrs. Grace Palmer
charging him with gambling and he
pleaded guilty to the charge and paid a
fine of \$10 and costs.

Palmer on returning to Nelson last
evening, became involved in an argu-
ment with his wife about certain
events that had occurred in the pool
room of late and made some threats
against her and she immediately had
a warrant sworn out for his arrest.

He was brought to Dixon for a hear-
ing before Justice Gehan and has en-
gaged Attorney Devine to defend him.
Mrs. Palmer this afternoon swore
out four other warrants against other
parties who she alleges have been
gambling there, three being against
railroad men and the other against a
township official. The warrants have
been placed in the hands of Sheriff R.
R. Phillips to be served.

Late this afternoon Palmer ap-
peared in court and was placed under
\$500 peace bonds for six months,
bonds in the above amount being
furnished.

Deputy Sheriffs Nettz and Schoen-
holz late this afternoon arrested Fred
Olida, Michael Cunningham, Robert
Mealy and David Gobhart at Nelson
on the charge of gambling and they
were brought to this city and arraigned
before Justice Gehan.

DIXON CEREAL CO. TO AWARD PRIZES

THE FARMERS WHO HAD GRIND-
ING DONE WILL BE
REWARDED.

In November the Dixon Cereal Co.
announced that they would award
three prizes to the farmers having
grinding done at their mill, the first
prize to be a double set of work har-
ness, the second a Hoosier cabinet
and the third a sack of flour.

It is announced today that these
awards will be made at the com-
pany's mill on Depot avenue Sat-
urday afternoon, April 3, at 2:30
o'clock, and all farmers are urged to
be present.

The mill is now equipped with a
modern 40-horse power direct con-
nected grinder with a capacity of
three tons an hour and their speci-
ality, Golden Glow corn meal, which
is being put up in 26 ounce cartons,
is meeting with popular favor every-
where.

FOURTEEN YEAR OLD GIRL, GONE

The Dixon officers have just re-
ceived notice of the disappearance of
another child from her home and
have been asked to be on the watch
for her possible appearance in this
city. On Thursday, March 11, Anna
Vlosky failed to return to her home
at Streator and no trace of her has
so far been found. She was aged 14.

MRS. CHAPMAN AND DAUGHTER BADLY BURNED

EXPLOSION OF GASOLINE CAUSE
OF SERIOUS FIRE AT
THEIR HOME.

VAPOR IGNITED FROM STOVE

Both Were Burned About the Face
and Arms—House Damaged
About \$1,000.

An explosion of gasoline at the
home of C. V. Chapman, 421 East
McKenney street, North Dixon, about
11:45 this morning resulted in se-
rious burns to Mrs. Chapman and her
daughter Dorothy. Damage to the
amount of nearly \$1,000 was done to
the house, most of which was con-
fined to the kitchen and dining room.

Mrs. Chapman was heating a jug
of gasoline in a big pan of hot water.
The gasoline and water were on the
floor near the stove, and a couple of
burners on the gas stove were burn-
ing.

The hot water, in heating the gas-
eased the gasoline to vaporize and
expand and the cork finally flew from
the jug, allowing the vapor to escape
into the room and the blaze at the
stove burners instantly ignited the
room full of gas vapor.

Just as the cork flew from the jug
Mrs. Chapman, who was alone in the
kitchen, was leaning over the pan and
was about to lift the jug away. At the
instant of the explosion her face was
directly over the spot where the fire
was centered and she was badly burn-
ed about the face, head and arms.
Her hair also was burned.

Rushed to Mother.

Miss Dorothy Chapman was in the
house and heard the explosion. She
ran into the kitchen immediately to
help her mother. The flames frighten-
ed her and drove her to one end of
the kitchen and cut off her retreat
through the door, and to escape it
was necessary for her to run directly
through the flames, which she did,
and she also received burns about the
face, arms and hair. The daughter
was even more seriously burned than
Mrs. Chapman. Mrs. Frank Bender,
living across the street, saw smoke
and flames and gave the alarm. The
neighbors came to the rescue and the
fire department made a spectacular run.

Dr. E. A. Sickels was called to the
Herbert Harns home, where the two
ladies had been taken, and gave them
medical attention. The interior of the
kitchen was badly charred and the
dining room was somewhat damaged.
The entire house was badly smoked
with the dense smoke from the gas-
oline.

Neither Mrs. Chapman or her
daughter were burned in the eyes nor
did they inhale any of the flame, and
the attending physician says they will
recover speedily.

CARROLL GOT DOPE; IS ARRESTED AGAIN

STARTED ON A RAMPAGE AT
HOTEL SANTONE THIS
MORNING.

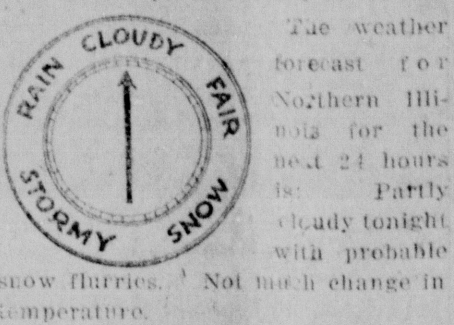

Sergeant John Gaffney was called
to the Santone hotel on Depot avenue
this morning to take in charge Rob-
ert Carroll, who has been a boarder
at the hotel the past few weeks. The
young man is a victim of the drug
habit and he secured some heroin
and was having all kinds of delusions
this morning and the officers had a
great time in getting him into a rig
to bring him to the station. He
was released from jail a few weeks
ago after serving a sentence for the
theft of some of the drug from the
office of a local physician. Where
he got the heroin this time is not
known, but it is thought that he se-
cured it out of the city as he was
away the forepart of the week. No
disposition will be taken of his case
until Monday when he will be away
from the effects of the drug.

HE EARNED IT.

Leander Hess, 421 Ottawa avenue,
was today awarded a handsome box
of candy by James Cleidon for prop-
erly pronouncing the words "Iacovos
Papatheimitrecomoudourouganchop-
oulos."

Charles F. Adam, Noted Historian Died At Capital

Was Once President of Union
Pacific Railroad—Urged
Taft's Election

(Associated Press)
Washington, D. C., Mch. 20.—
Charles Francis Adams, publicist and
historian, died at his winter residence
here early today, death being due to
pneumonia.

Charles Francis Adams was widely
known as a publicist and historian.
He was a great-grandson of Presi-
dent John Adams, a grandson of Pres-
ident John Quincy Adams and a son
of Charles Francis Adams, minister
to Great Britain in the Civil War pe-
riod. A biography of his father which
included a review of the diplomatic
negotiations between the United
states and Great Britain over Civil
War problems, was one of Mr. Ad-
ams' most notable books.

Born in Boston May 27, 1835, and
graduated from Harvard in 1856, he
was admitted to the Massachusetts
bar two years after leaving college.
He served in the Union army through-
out the Civil War rising in rank from
first lieutenant to colonel and brevet
brigadier general of volunteers. After
the war he was identified with
railroad affairs for many years, serv-
ing for six years as president of the
Union Pacific railroad and for ten
years as a member of the Massachu-
setts board of railroad commis-
sioners. He was chairman of the com-
mission which planned the metropolitan
park system in and about Boston.

Never seeking public office, Mr.
Adams took an active part, as an in-
dependent, in political affairs in his
writing and speeches. His addresses
in Chicago, when he gave high praise
to General Robert E. Lee and suggest-
ed the erection of a monument to Lee
at Washington, and at Richmond, in
1908, when as an "independent dem-
ocrat" he urged the election of Taft
over Bryan, attracted wide attention.

Mr. Adams was a member of the
board of overseers of Harvard Uni-
versity for more than twenty years.
In 1913 he lectured at Oxford on Amer-
ican History. He was the author of
numerous books on railroads and on
various phases of American history,
and was a fellow of the American
Academy of Arts and Sciences and a
member of the American Academy of
Arts and Letters.

trian—the Trentino, Istria, Gorz—which Italy seeks. All this territory once

force King Victor Emmanuel's hand. King Emmanuel is shown with picture

STERLING'S PHARMACY FLOODED; STOCK IS DAMAGED ABOUT \$350

BURSTED PIPE ON THE SECOND
FLOOR IS CAUSE OF DEL-
UGE OF STOCK.

ELKS' CLUB SUFFERED ALSO

Drains On the Second Floor Were
Clogged—Waiting Room
Was Flooded.

The bursting of a pipe on the sec-
ond floor of the Jordan block on Ga-
lena avenue at about 6 o'clock this
morning resulted in a flood of water
pouring down into the store rooms on
the main floor occupied by Sterling's
Pharmacy and creating damage to
goods which will reach approximately
\$350, according to the calculation of
Robert Sterling today.

A slight damage was also done to
the stock in the L. E. Edwards book
store in the same building, but it will
not total over \$10.

When Floyd Kehr, an employe at
the drug store, arrived at the store
early this morning he found water
pouring down through the ceiling on
the south side of the room and every-
thing on the shelves on that side of
the aisle was being drenched.

Inspection of the basement under
the drug store showed that the water
damage had continued and among
other things an entire section of wall
paper stock, which had been stored
along the south wall of the basement
was soaking wet and, of course, val-
ueless.

The shelves in the drug store which
were subjected to the drenching were
loaded with merchandise of various
kinds. A stock of stationery, oil
silk and innumerable minor articles
were ruined. Rubber goods of course
were uninjured, but the cartons and
boxes they were packed in were soak-
ed and as in the case of many vari-
eties of merchandise which were in
bottles and tins and also enclosed in
paper boxes and wrappers, the cover-
ings were soaked and stained and
pulled apart, so that the market val-
ue of the goods was greatly depreci-
ated, even though the actual value
was unimpaired.

Damage at Elks' Club.

Defective plumbing, which caused
water to run all night long from the
second floor through the ceiling of
the writing room on the first floor at
the Elks' club last night, caused the
plaster on the ceiling to fall and con-
siderable damage was done.

WAR SUMMARY.

(Associated Press.)
The attack on the Dardanelles was
resumed yesterday notwithstanding
the losses suffered by the allied fleet
on Thursday. Unofficial advices say
that little was accomplished yester-
day on account of unfavorable weath-
er conditions.

SUNK BY TORPEDOES.

Constantinople says that the sink-
ing of the British battleships Irres-
istible and Ocean and the French
battleship Bouvet, which was ascrib-
ed by the British admiralty to float-
ing mines, was in reality due to tor-
pedoes.

Athen says that 200,000 shells
were fired during the six-hour bom-
bardment Thursday, the fire from
the Turkish batteries being of un-
interrupted violence.

SEVERAL VESSELS HIT.

Gaulois was touched by a mine but
can be repaired in a few days. The
British cruiser Inflexible was hit on
the bow by shells, one shell, which
struck on the deck according to re-
ports killed forty men and wounded
many others.

FORTS SERIOUSLY HURT.

The Turkish forts were also se-
riously damaged many of their de-
fenders being killed and wounded.

LOCKDOWN AUSTRIA.

fleet in the Adriatic has been noti-
fied to prevent the transportation of
all goods to or from Austrian ports.

NETHERLANDS PROTEST.

Netherlands has sent a formal pro-
test to Great Britain and France
against their naval policy. Den-
mark, Norway and Sweden early this
week made the identical representa-
tion against the policy of reprisals on
German commerce.

GERMAN LOSSES HEAVY.

The total German losses at Nouve
Chappelle are placed at 6,000 in an
official statement from Berlin. Ac-
cording to the British statement the
Germans lost 17,000 there.

ITALY GETTING READY?

The authorities have distributed to
the Italian soldiers identification
badges which are designed only to
be worn during active campaigning,
and the incident is regarded as sig-
nificant of Italy's preparedness for
any eventuality.

BERLIN CLAIMS.

Several French attacks were re-
pulsed yesterday with heavy losses
for the enemy, according to today's
Berlin announcement. Paris state-
ment says there is nothing to com-
municate.

LOSS HEAVY IN POLAND.

Petrograd estimates the property
loss in Russian Poland as a result of
the German invasion at \$500,000.
Many of the towns and larger vil-
lages were destroyed while 4,500
smaller places were devastated.

WEEKLY SPORTING LETTER

Associated Press Expert Tells of Interesting Events in the World of Sport — Live Sporting News From all over the World.

(Associated Press.) New York, March 20.—If the promoters of the Johnson-Willard heavy weight championship bout adhere to their announcement to hold the contest on Easter day, April 4, it will be the first time that a ring match of this calibre has been held on a Sunday. Championship bouts in many classes have been held on holidays in all parts of America and Europe but pugilists and promoters have heretofore confined their ring activities to other days than the Sabbath.

Johnson won final recognition as the world's championship by defeating Jeffries at Reno, Nev., on the Fourth of July, 1910. Bob Fitzsimmons won the heavyweight title from Jim Corbett at Carson City, Nev., on St. Patrick's day, 1897. Jack Johnson gained his first claim to championship honors by defeating Tommy Burns at Sidney, N. S. W., on December 26, 1908, which is known as "Boxing day" throughout the British empire. Because of the difference in time the result of this battle was known throughout the United States on the preceding day—Christmas. In other weight classes holiday bouts in which championships changed are numerous. Young Corbett's victory over Terry McGovern was won on Thanksgiving day; Battling Nelson lost his title to Ad Wolgast on Washington's birthday, 1910, and the list might be continued almost indefinitely.

Sporting events of various kinds are held on Sunday in Central and South America and continental Europe but aside from baseball, bicycle racing, track and field athletics and association football games, Sabbath sports have never been popular in the United States. In Mexico, Cuba and South America bull fights, cocking, mauls and minor sports are or were held on the first day of the week. In Europe several classic turf events including the French Grand Prix are always scheduled for Sunday. Ring record show that few bouts of importance have been held abroad on Sunday and American tabulations show an equal scarcity in this respect. Where they have been held on Sunday the contests were those of the early periods of pugilism and the selection of the day due to police activity which up-

set the plans of the promoters. Such a case was the Jack Dempsey-George La Blanche battle held on a barge in Long Island sound early Sunday morning, March 14, 1886.

The opening and closing dates for the leading major and minor leagues for the season of 1915, show that the Pacific coast league will as usual, play the longest season. The Pacific coast schedule which opens on March 30 and continues until October 24 calls for close to seven months of continuous play. In the east and middle west the American, National and Federal leagues will carry their pennant races through a season of approximately six months. The dates for the initial and final games of the season are as follows, the first date being the opening and the second the closing:

National, April 14; Oct. 7.
American, April 14; Oct. 7.
Federal, American 10;
American Association, April 22; Sept. 22.
Pacific Coast, March 30; Oct. 24.
Northwestern, April 19; Sept. 18.
New England, April 30; Sept. 6.
Texas, April 8; Sept. 6.
Southern, April 13; Sept. 26.
Georgia, April 20; August 21.
North Carolina, April 22; Sept. 15.

Owing to the open winter, rowing at the eastern colleges and universities is further advanced than usual this spring. Yale, Harvard, Pennsylvania, Syracuse and Columbia have had crews on the water a number of times and in some cases established new records for early season outdoor training. Reports from the various institutions indicate that because of the advantage gained by this early training the selection of the varsity combinations will be made in time to permit the crews as a whole to reach a high stage of perfection in our handling by the end of June when the championship regattas are to be held.

Although the schedules and dates for the college crews are not complete in all cases the fixtures as arranged at present indicate a season of rowing fully up to the 1914 standard. Tentative dates for dual, triangular and championship regattas have been arranged as follows:

April 3—Yale vs. Pennsylvania, at

Philadelphia, Pa.

April 10—Pacific Coast Intercollegiate Regatta, Oakland, Cal.

April 17—Princeton vs. Navy, Annapolis, Md.

April 24—Harvard vs. Navy, Annapolis, Md.

May 1—Pennsylvania vs. Navy, Annapolis, Md.

May 8—Pennsylvania - Princeton - Columbia, Princeton, N. J.

May 15—American Henley, Philadelphia, Pa.

May 15—Cornell - Princeton-Yale, Princeton, N. J.

May 22—Harvard vs. Cornell, Ithaca, N. Y.

June 25—Harvard vs. Yale, New London, Conn.

June 28—Intercollegiate Regatta, Poughkeepsie, N. Y.

BACK TO NATURE ON BATTLEFIELD

SURGEONS DISCOVER NATURE IS POTENT FACTOR IN HEALING WOUNDS.

Berlin, Mich. 6.—Correspondence of the Associated Press—Surgery upon the battlefield, according to a well known physician, Dr. Ziegelroth, is becoming more and more a matter of "back to nature." The doctors, military and civil, who are tending the wounded in the west, are discovering, not without some surprise, how potent a factor nature is in healing the wounds.

Amputations are resorted to only in cases of utmost necessity, and surgeons are acting with the greatest conservatism where previously limbs were severed quickly when certain symptoms appeared. The cohesiveness that ordinarily would have been considered impossible. Ordinary injuries are dressed with antiseptic bandages, and then are not rebound any more than necessary. The healing is being left to efficient nature.

The civil practitioners in the western field, according to Dr. Ziegelroth, are engaged in a friendly but spirited contest with the military surgeons and are giving extraordinary service. Men who in ordinary life have a "golden practice" are enduring all the hardships of the field without a murmur, and good-humoredly contend for bundles of straw upon which to sleep in barns and stables. The snoring of fellow physicians seems to bother them no more than the artillery fire.

Bar Tips in Wisconsin.
Madison, Wis., March 19.—A stringent anti-tipping bill applying to hotels, restaurants, barber-shops, railroad trains and similar public places, and amended to penalize the employer of underpaid servants, as well as the recipient of gratuities, passed the senate by a vote of 27 to 4.

Carranza Forces Defeated.
Washington, March 20.—Defeat and complete rout of the Carranza forces under General Monclovia Herrera by the convention troops of General Rosendo Hernandez at Oregano, southwest of Piedras Negras, was reported to the Villata agency by the military commander at Piedras Negras.

ROCHELLE SHOWS LITTLE INTEREST IN BALL LEAGUE

EFFORT MAY BE MADE TO TAKE IN BELVIDERE INSTEAD.

MAY HAVE INDEPENDENT CLUB

In Case League Plan Is Dropped — Dixon Players to Wisconsin Circuit.

The promoters of the proposed week-end baseball league to include teams from Sterling, Dixon, Rochelle and DeKalb, announced today that all of the cities are ready to go into the league with the exception of Rochelle in which the baseball leaders are exhibiting nothing but apathy. If, however, Rochelle does not get the proper spirit within a short time an effort will be made to interest the Belvidere fans and players; and in case of success meeting their efforts in that city the league will be consummated.

Independent Team.
Should efforts to form the league fail it is announced that a strong independent team will be organized in Dixon, with Milo Stratton in the city to assume the management and to do the catching there is no doubt that an excellent club could be formed without the importation of much material.

The games in the City League last season did much to develop a number of local young players, and these fellows, with Stratton's coaching could be whipped into a formidable aggregation. In case an independent team results from the present agitation games will be booked with the strongest semi-pro teams in this part of the state.

Try Out With Leagues.
In all probability Larkins, Hogan and Duffy of last year's city league teams will be given tryouts in the newly forming Wisconsin league, the former having been offered a trial with Racine and Hogan and Duffy having agreed to go to Beloit if the league is formed.

PICKS H. S. DEBATING TEAM

The team which will represent Dixon high school in the debating contest with the Rochelle high school in a short time, was selected Friday afternoon, ten contestants making an effort to be chosen. The following were the fortunate ones: William Webster, first; Donald Barry, second; Stanley Miller, third. Eugene Cahill and Stanley Miller were tied for third place, the latter finally winning the position. The oration and declamation teams will be selected later on.

The young men who participated in the preliminary contest were William Webster, Donald Barry, Stanley Miller, Eugene Cahill, David Rubenstein, Leo Buita, Arthur Heffley, Charles Green and Ralph Rubenstein.

The question discussed was "Shall the state of Illinois grant the railroads a 2 1-2 cent passenger rate." The negative side of the proposition was handled by Messrs. Rubenstein, Buita and Rubenstein.

The preliminary skirmish was interesting and it was with difficulty that the three judges made their selections. The markings were very close. However, all three judges agreed that Mr. Webster should be given first place. In the three young men chosen the Southside school has a team that should take away the honors from the Rochelle boys.

The debate between Dixon and Rochelle will be held sometime in April at Rochelle. The rate question will be debated, Rochelle debaters taking the negative side of the proposition.

CONDITION IS CRITICAL.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream, into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more yawning, sneezing, blowing, no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

HOPE TO GET TENNIS TOURNEY FOR DIXON

DIXON TENNIS CLUB ELECTED OFFICERS AND MADE PLANS FRIDAY EVENING.

WILL IMPROVE THEIR COURT

Have Secured Ground for Another Year and Will Make Some Improvements.

The members of the Dixon Tennis Club held their annual meeting Friday afternoon and the old officers were re-elected for another year. The officers are as follows: President Charles Leake; vice president, Oliver Rogers; secretary and treasurer, E. T. Bailey. It was voted to take in a limited number of new members among the ladies and gentlemen. Those who wish to join the club should file their application with Secretary Bailey.

The club have been enabled to secure the grounds at the corner of Galena and Fifth street, where the court will be located for another year. E. J. Ferguson, owner of the land. He has donated them the use of the ground for another year. The club will make some improvements on the court as soon as the weather becomes settled, in the way of putting in tile to drain the court after a rain and they will also sod the ground around the outside of the court. The president has appointed a ground committee composed of Messrs. O. M. Rogers, E. T. Bailey, C. H. Anderson and Rev. O. E. Bradshaw. They will have charge of the work of improving and keeping the court up during the season. A ground keeper will be engaged to put in an hour a day or so, in sprinkling and rolling the court. New nets and taps will be purchased and the back stops repaired, and it is hoped to have everything in readiness so that playing can be started Easter week. The court was exceedingly fast last year and if possible it will be made faster this year.

New benches will be placed on either side of the grounds. The ladies will be extended the privilege of the use of the court during the morning and afternoon hours up to 3:30.

Several good matches were played off on the court last year with out-of-town teams and it is hoped this year that the Northern Illinois Tennis tournament may be held in this city during the middle of September.

THE PLANET NEPTUNE.

The planet Neptune is the most distant member of the solar system. It is herds by itself 2,627,000,000 miles from the sun and revolves about it once in 165 years. This, in itself, is a profoundly sad fact. Think of the millions of the millions of fathers and mothers on Neptune who bury their precious little one anywhere from 50 to 165 years before they have celebrated their first birthday.

Neptune is a very large planet, 36,000 miles in diameter. The earth is a mere pumpkin beside it. Yet Neptune is not visible to the naked eye, and even though a telescope as big as a howitzer is used, it only appears as a pale disc about the size of the republic vote in Missouri. It has one satellite, but no other forms of movement so far as known. Remote from all companionship and excitement, it pursues its lonely course half a billion miles from its nearest neighbor—as isolated as a socialist in the House of Representatives at Washington.

Neptune is not important except as it has demonstrated the almost unbelievable ability of astronomers to find things. And yet, we persist in relying on detectives for the suppression of crime!

It might be a good scheme for every couple to get married on the 13th of the months. Then they would have something to blame it on in later years.

When a man goes shopping with his wife he is either henpecked or in love with her.

Every clerk knows that if the boss made the office force undergo an efficiency examination the clerk would run first and the manager last.

If we had to unbutton our overcoat and get down into our pants pockets to extend sympathy we would be as stingy with sympathy as we are with some other things.

Try It Once.

If you favor war, dig a trench in your back yard, fill it half full of water, crawl into it and stay there for a day or two without anything to eat, get a lunatic to shoot at you with a brace of revolvers and a machine gun, and you will have something just as good and you will save the county a great deal of expense.

Our New National Anthem.
My country, 'tis of thee
Land where things used to be
So cheap, we sing,
Land where folks could buy
Things that are now so high,
Our memories cling.

Some of thy children swear
That what the yeast and wear
Takes all their wail.
Others avow that they
Eat only once a day,
And for it cannot pay,
So help them God.

Thy people humbly crave
To pull from out the grave
At least one leg.
We do not ask to dine
On flesh of beef and swine
But give us, Lord divine,
One good, fresh egg.

Our Fatherland, with thee,
Blest home of liberty,
We chose to stop.
We don't exactly like
So soon henceforth to hike
But we must hit the pike
If things don't drop.

New American Navy Guns Are Heaviest Ever Designed

(Associated Press)

Washington, Mich. 18 — The two battleships provided for in the current naval bill may be armed with 16 inch rifles, the heaviest naval guns ever designated.

While tentative plans for the new ships contemplate vessels similar in general design to the 32,000 tons giants of the California class now being built, details of armament and engine equipment are being given unusual attention by navy designers and the results obtained from the 16-inch main batteries of the newest British and German battleships are being closely watched.

Already the new 16-inch navy gun has been subjected to tests at the Indian Head proving ground and while details of its construction and performance are closely guarded it is known that the gigantic weapon has given proof of its efficiency which delighted navy ordinance experts. The gun was built at the American naval gun factory and has been undergoing tests for several months.

Some idea of the probable size of the new American gun may be gathered from the fact that each of the eight 15-inch guns of the British battleship Queen Elizabeth weighs 96 tons while similar rifles designed by the Krupp works for German battleships laid down this year each weigh over 82 tons. The 14-inch rifles of the battleships New York and Texas for the five new American dreadnaughts now under construction will weigh 63.3 tons each and it is certain that the new 16-inch weapon weighs more than 199 tons without mounting.

Krupp engineers have designated a 16-inch gun which fires a projectile weighing 2928 pounds against the 1675 pound mass of steel hurled by the 15-inch rifles adopted by the German navy and the 1720 pound projectiles poured into Turkish fortresses of the Dardanelles by the British battleship Queen Elizabeth. None of the German or British vessels of the first line carry any weapon exactly similar to the American 14-inch gun, a jump having been made last year from the standard 12-inch rifle to the 15-inch type.

The New York, Texas, Nevada and Oklahoma each carry ten 14-inch guns, while the Pennsylvania, California, Idaho and Mississippi each will carry twelve, placed three to a turret. These weapons throw projectiles weighing 1,600 pounds as in the case of the 14-inch guns designed for the four Japanese battleships estimated for 1914.

With the increase in size, the life of the gun is shortened by erosion, due to the heat generated by the explosion of the huge charge of powder necessary to hurl nearly a ton of metal fifteen miles that is said to be the range of the American 16-inch weapon. The rifling of the gun burns out under the blast. Drops of melted

SEND PIGS TO BELGIUM.

A million German pigs have been killed on the civilian population of Belgium because of the scarcity of fodder in Germany. The pigs must be cared for by the Belgians. One of the wealthiest inhabitants of Brussels has been compelled to take 12 pigs at what he styles "reduced rates by the week." His poorest neighbors have at least one pig to care for. The Germans have devised an elaborate system of obtaining reports of the condition of the hogs. In a number of instances the distribution system went awry and as a result the occupants of apartments and flats have been saddled with several animals.

THE PRESIDENT'S HEALTH.

President Wilson admitted with regret the other day that there seemed to be only a very slim chance of his making the trip to California to which he had been looking forward. That is a great pity for a variety of reasons, and principally for the reason that the trip would have done him good.

He has had a fearfully hard winter. Certainly no president since Lincoln has been subjected to so terrible a strain, and personal grief has increased the burden of Mr. Wilson's troubles. Moreover, it is wholly probable that the worst is yet to come and that his perplexities and responsibilities increase rather than diminish. It is obviously impossible for him to take at this time the rest that he must require, and until a solution is found for the immediate problems which confront the country from the direction of Europe, he must stick to his place in the White House. But the first opportunity that offers, the first lull in the storm that now besets us, should be made use of as a chance for temporary withdrawal from the cares that must sit so heavily upon the president. A breakdown for him now would be a calamity; and, though there has been no hint that such a thing is probable, it must be reckoned as more than possible or else Woodrow Wilson is more than human.—Charleston News and Courier.

NOT WITHOUT RESOURCES.

To those who deem this country inadequately prepared for war, and entirely at the mercy of the foreign invaders, we would point out some salient facts revealed in recent published statements in these papers. Among them may be noted the orders, totalling a billion dollars for the first year of the war, for arms and munitions from the foreign governments—orders which are being filled satisfactorily by seventy-five American factories. Side by side with this record we note the formation of a reserve of 300,000 men—to be known as the American Legion—and made up of "former members of the army, navy and militia."

In the event of a war, every one of those munition factories, together with several others under the control of the government, would be commanded for the purpose of manufacturing arms and ammunition for the United States army and navy. That we would thus be independent of foreign importations of military supplies is hardly possible of denial. And the reserve now in process of formation, together with our excellent navy, the regular army and the existing state constabularies, would not leave us completely prostrate in the face of alien invasion.—St. Paul Pioneer Press.

PASTE THIS IN YOUR HAT.

Isn't this a good time to cut out and paste in our hats the sensible admonition of the late Robert J. Burdette, in his address at the convention of the American Bankers' Association in Los Angeles, in 1910, when he said: "A bit out of every pay envelope, enough to patch the leak in the roof, enough to provide for the rainy day, enough for the holiday once in awhile, enough for a new book and an evening at the show, enough for the dreary days of sickness.

"Enough to pay every bill when it is presented. Enough to take up the note when it is due. Enough to save the man from becoming the unmitigated nuisance that is always borrowing quarters and halves, knowing they are obligations just too small to justify a dun.

"Just enough in the bank so that when your wife needs a little extra money for the little emergency demands in the household, she won't come to you with the air of a woman who has made up her mind to suicide or murder, and doesn't care very much which.

"That's thrift. That makes a man rich on a salary. Earn; save; lay by enough to keep the wolf from the door when the hearse with its sable plumes halts to receive its freight of nothingness."

PLACE FOR THE PRESIDENT.

President Wilson's decision to give up the trip to Panama and to the San Francisco Exposition will be approved by the whole country. Even in California, after the first disappointment, people will feel that it is better to have the president remain at his post of duty. No formal announcement of reasons was made at the White House, but everybody knows what they must be. There are delicate international relations, of which the changing phases can best be dealt with by constant study on the spot. They are not an affair to be considered "between stations," or passed upon the basis of telegrams forwarded from Washington to the president on ship or train. And the fact that Mr. Wilson and his advisers are to give unremitting and first-hand attention to all these questions will make Americans feel safer. There is also the Mexican agony, now apparently drawing to a crisis. This, too, means anxious days and nights for the president. It is difficult work to which he is dedicating himself in the place of the expected excursion, but it is one which he cannot pass over to another. That he may have health and strength and clear vision and cool judgment, as he applies himself to his great task, all his fellow-countrymen will pray.—N. Y. Post.

COLONEL LOWDEN FOR GOVERNOR.

Colonel Frank O. Lowden of our neighboring county of Ogle is being asked to be a candidate for governor of Illinois. The Colonel would make a good governor, and he would get the vote of every voter of all parties in northern Illinois, the biggest share of the vote of southern Illinois and all that would be needed to elect him in Cook county, in spite of the fact that some Chicago newspapers and Mr. Deneen would be against him.

The robins usually come in flocks about the middle of March, only varying a day or two, and if they are on schedule this year, they are due now. However, there would be no serious objection if the poor little fellows stayed away awhile, because the weather is hardly Springlike right now.

LaFollette of Wisconsin has been known to cock a speculative eye at the presidency and to brighten up his face with a slow smile at the prospect, but he is back on earth again now and from all reports he'll have to hustle even remain a United States senator.

The most popular byword of the present day is "ker-choo!"

HIGH AMBITIONS.

I'd like to be a fighter, and with the white hopes stand, though joshed by every writer throughout the weary land. I'd do some heavy bluffing and say I'd whip the Smoke, and from him knock the stuffing—and all that kind of joke. I'd gladly take a licking, to get a roll of seads; I'd call that easy picking, as do all white hope iads. The people are so easy, they are a sight to see! though they should know I'm cheeseey, they'd surely fall for me. For any spavined duffer, who threatens, bold and rash, to make Jack Johnson suffer, can get the people's cash. They come, a-scratching gravel, to hear his fierce harangues; to see him scrap they'll travel five thousand pacesangs. And when he's beaten badly, and has a mangled face, they only murmur sadly, "His name is Schweitzerkase." And like dumb, driven cattle, disgusted, sick and sore, they walk back from the battle, five thousand versts or more. But the are always eager to hail another star, however cheap and meagre his claims to greatness are. They hear his bragging breezy, and whoop like everything, and won't believe he's cheeseey, till proven in the ring.

COME ON, MARCO BOZZARIS!

It was less than a century ago that Halleck wrote his stirring lines: At midnight in his guarded tent The Turk lay dreaming of the house When Greece, her knee in suppliance bent, Should tremble at his power. It will be recalled that when the Turk did wake he found the subsequent events very painful. Now apparently the poor old fellow is having a regular nightmare of it, and Greece is aching for another dash at him. It would only be poetic justice to let the Hellenes put the finishing touch to the victim. He deserves no sympathy or mercy.—Philadelphia Record.

FOOLING SOME ALL THE TIME.

After all the fuss that has been made about "pure food" if it is possible in any American city to sell bread containing twenty-four per cent of plaster of paris without going to jail for it, the makers and administrators of law have been sadly fooling the people.—Milwaukee Wisconsin.

Without consulting a weather prophet, and without fear of contradiction, we are able to announce that the arrival of Spring has been postponed on account of the weather.

CURRENT COMMENT

Moline Dispatch: Herbert S. Bigelow seems to expect more than does Billy Sunday. Bigelow was president of Ohio's recent constitutional convention, which gave that state a new fundamental law. He says: "We must develop citizenship to a point where the average voter knows as much about what is going on in the legislature as he does about the facts on the baseball diamond."

Schuyler Citizen: The special war taxes to bolster up a treasury deficit is what is going to help change the management of governmental affairs at Washington. The people do not relish licking stamps, and it is now a certainty that they will have to continue to do so for at least eighteen months, as the appropriations are now millions in excess of receipts for next year. We wonder what they will call the next tax. The present party in power is to be pitied, as it is so deep in the mire that it will nearly impossible for it to pull out with any degree of respectability.

Kankakee Republican: The Illinois Dairymen's association has invited Homer J. Tice to deliver an address on hard roads at its annual convention. If there is any class of men who know more about bad roads than the rural mail carrier, it is the dairymen.

Elgin News: It is to be hoped that while the lawyers at quibbling over the legal aspects of the hoof and mouth disease, the same will not spread over this whole district and cause incalculable loss to the community.

Rockford Register-Gazette: Col. Frank O. CHURCH MEMBERS GET BOWLING FEVER

CHALLENGES ARE BEING hurled back and forth between rivals.

The bowling fever seems to be spreading and challenges are being issued promiscuously. The various churches have organized teams and are now anxious to show their skill in rolling the balls down the alleys.

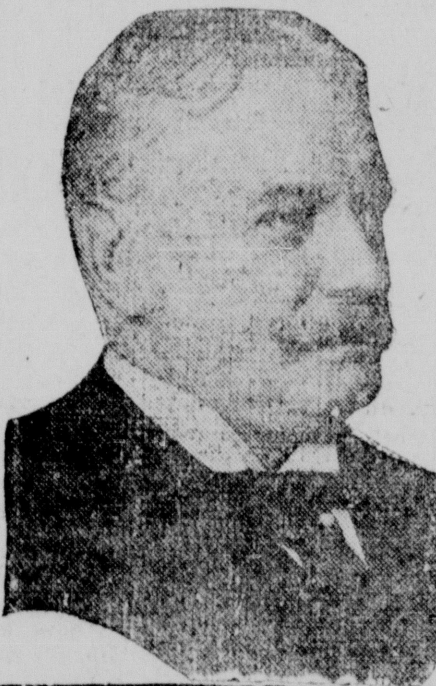

Last evening the Christian church team challenged the Board of Directors of the Y. M. C. A. for a game and they were accommodated.

The church team was composed of Messrs. Self, Poole, C. and G. Stauffer. The "Y" team was composed of Messrs. Raymond, Laing, Anderson, Chapman and Bailey. The "Y" team came out ahead by 250 pins to the good.

The team from the Methodist church has issued a challenge to the team from the Christian church and the game will be rolled off probably Monday evening at the "Y" alleys.

Opposing Candidates For Mayor Of Chicago at Election April 6

Photos copyright by Moffett.

Robert M. Sweitzer, left, is Democratic candidate for mayor of Chicago. William Hale Thompson, right, is the Republican candidate. The election takes place on April 6. Mr. Sweitzer, now county clerk of Cook county, Ill., was for years a salesman for a big wholesale house, but entered politics as the protégé of Roger C. Sullivan four years ago. He defeated Mayor Carter H. Harrison recently for the Democratic nomination. Harrison has served six terms. The election is one of the most important spring municipal elections in the country.

who, being a Lee county citizen and in the light of the business that had brought the committee together in the afternoon, was another honored

guest, was also asked to speak, which he did in his own entertaining way. Many other gentlemen responded to the toastmaster's call. The remarks were brilliant in their humor, high in their praise of Chairman Warner and filled with the enthusiasm of republicanism and its future. The spirit of the evening was perhaps accurately expressed in a poem which Judge R. H. Scott read to the assemblage. The poem follows:

THE LAST COURSE—A DEMOCRATIC ROAST.

(By R. H. Scott)

At the little social meeting, where we've done a little eating,
And a big amount of greeting—of our friends,
We'll start out to save the Nation from that curious aggregation,
In the saddle.
Gathered here for feast and work, with no one inclined to shirk,
We'll sharpen up our dirk—
For Wilson.
He's a fine man, personally, nice as one would wish to see;
And he's trying hard to be—
Our President.
But he's of that aggregation that can't run a first class nation;
They have always raised damnation—
When in office.
He was for the Panama tolls, and for stopping up the holes—
In the treasury.
But the holes are getting bigger, and the tolls—they got the dagger—
From the Chief.
He was going to make times good, and he made some think he could—
But he didn't.
It's some job to run this land, and it needs a first class hand—
At the helm.
Taft and Roosevelt ran it well; under McKinley times were "swell"
But things sure have gone to hell
Under Wilson.
As Dick Oglesby used to say, "It's a man's job every day,
One that takes the matter gray—
Of a statesman.
If you trust the "Dems" to do it, some day you are bound to rue it—
For they can't.
They can't run the thing just right, though they try with all their might;
Twixt themselves they're sure to fight—
For that's natural.
If you watchfully have waited for good times that seem belated
Though they said that they were slated—
Wait some more.
While they watchfully are waiting, many folks will be debating—
"What's the Reason?"
Is the carburetor groggy? Are the roads a little boggy? Is the night a little foggy?
Something's wrong!
But the older folks say that, "Everything's always flat
When the 'Demos' go to bat."
Think of that!
They can't knock a "homer" straight, you can always tell their fate
When they step up to the plate—
They are out!
In the field they're sure to miff, and the umpire calls their bluff,
And the "bleachers" yell "What Stuff!"
And it's over.
And in two years you will see a stampede to the G. O. P.
Sure as one and two make three—
Now you watch.
We don't wish to hurt their feelings, but they get the core and peetings—
That is all.
As a chairman, Warner's right, and he helped to win the fight—
Last November.
Nineteen sixteen, watch old Lee head the list of the G. O. P.
Where she really ought to be—
So I think.
If this jingle hurts your ears, I will quiet all your fears—
For I'm done.

GIRLS DECIDE \$5 IS ENOUGH FOR GOWN

FREEPORT HIGH SCHOOL LADIES PUT MAXIMUM PRICE ON FINERY.

Freeport, Mich. 20.—The troublesome question of the price of the senior girls' graduation dresses was settled yesterday afternoon when it was put to a vote. The girls expressed themselves as opposed to the uniform dress plan, stating that the dresses should be made to suit the individual and of course this would be impossible if each person had to wear a certain style. For the last few years it has been customary for all of the girls to attend the graduation exercises in similar dresses.

That a maximum price should be set was readily agreed upon and after some discussion the limit of \$5 was set for the cost of all materials, including trimmings. The style will be left to the individual but must be approved by Miss Kruse.

GERMAN OFFICIAL ACCUSED

Attorney for Stengler in Passport Case Makes Strong Charge.

New York, March 20.—Those who heard Richard Peter Stengler sentenced to two months on Blackwell's island by Judge Cushman in the United States District court for conspiring to obtain a fraudulent passport were startled by the declaration of Stengler's lawyer, Charles H. Griffiths, that a certain official representing the German government in this city had inspired Stengler to get the passport so that he, Stengler, might go to England and act as a German spy.

"Unfortunately," said Mr. Griffiths, "this representative of the German government is immune from arrest, otherwise I could show you in this very court that he led Stengler, but Stengler is the only instigator of the plot that the law can reach."

GERMANY CHANGES ENVOYS

Work of Herr Von Muller to Holland Not Satisfactory.

Amsterdam, March 20.—A dispatch from Berlin says Dr. Richard Von Kuhlmann has been appointed German minister to the Netherlands to succeed F. Von Muller.

A dispatch from Amsterdam ten days ago said Herr Von Muller had failed lamentably in his task in Holland and a diplomatic illness would allow of his recall. Germany, it was said, attached great importance to public sentiment in Holland an energetic diplomatist would be appointed to succeed Herr Von Muller.

THE HOME MERCHANT. WHO IS HE?

Mr. Carroll Democrat: The home merchant. Who is he?

He is the chap who gives you credit when you are financially broke and carries your account until you are able to pay.

He is the chap who gives you back your money or makes exchanges when you are not satisfied with what you have bought.

He is the chap who stands behind his guaranty and makes restoration of all losses that you may sustain on the goods you buy.

He is the chap who meets you at the door with the handshake, and lets you out with the message to the "kids" and a real come again goodbye.

He is the chap who meets and greets you on the street every day in the year and takes a neighborly interest in your affairs and your family.

He is the chap whose clerks and bookkeepers and other employees live in your town and spend their money with you and other town people.

He is the chap who pays heavy taxes to help support your city schools, and build paved streets and maintain efficient fire departments and police department and parks and lighting and water service.

He is the chap who helps support your churches and hospitals and charity organizations and your local lodges and commercial clubs and loyal support.

talks for them and boosts for them every day in the year.

He is the chap who visits you when you are sick, sends flowers to your family when you die and follows your body out among the trees and tombs as far as human feet may travel with the dead.

He is the home merchant—your neighbor—your friends—your helper in the time of need.

Don't you think that you ought to trade with him and be his friend and his helper in the time of need?

Don't you know that every dollar that you send out of town for merchandise is sent to strangers—to men who never spend a dollar in your community, to men who would not trust you for a box of matches, to men who would turn you over to police if you should enter their offices?

You don't save much, frequently nothing, when you send your money out of town, and you take all the risk yourself of short weight or measure and of getting damaged or inferior goods. And don't you know that the growth and prosperity of the community depends very largely upon the success and prosperity of the home merchant? Out of town people judge our city by the appearance of our stores and the degree of enterprise shown by our merchants. And our home merchants can not succeed unless you give them your lodges and commercial clubs and loyal support.

RAILROAD GAUGE IN RUSSIA IS WIDE

GERMAN ADVANCE IS HAMPERED BY DIFFERENCE IN TRACKS.

Berlin, March 6.—(Correspondence of the Associated Press.)—As German forces press on into Russia, the problem of adjusting German standard gauge railroad coaches to the wider Russian tracks arises. Everywhere else in Europe the rails are 1435 millimeters apart, but on the Russian roads they the 1524 millimeters wide.

For some time certain cars and train plying between Germany and Russia have been equipped with interchangeable axles which at the border can be shifted in a few minutes, but the majority of the German rolling stock is not so fitted, especially the passenger cars.

The shift from standard to broad gauge is accomplished by shunting cars traveling Russia-ward from the standard track into a sort of turn table, out of which lead the broad gauge rails. In this table or pit the German car is jacked up by means of four auxiliary cars, one at each corner, the standard gauge wheels removed and in their places are attached sets of wheels fitted to the broad gauge tracks. The auxiliary cars, operating under their own power then propel the German coaches along until the Russian tracks are reached.

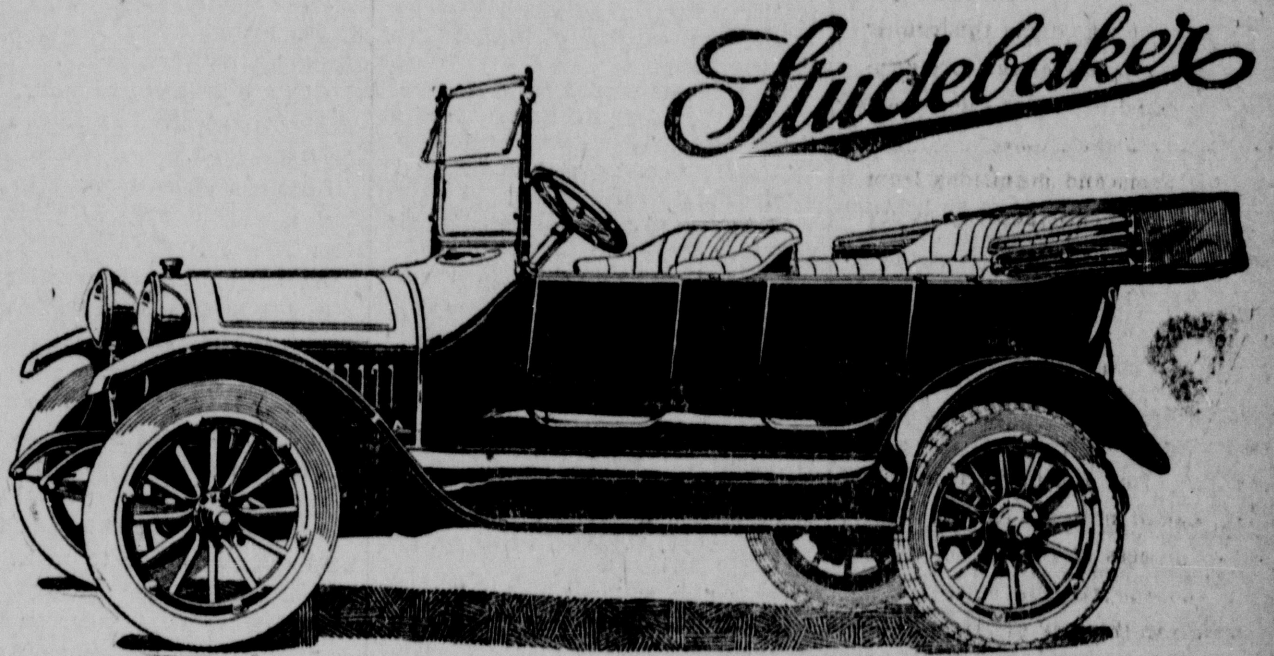

BOYS CAUGHT MAKING ESCAPE

Two From St. Charles School Climb Elevator Cable at Police Station.

Chicago, March 20.—Two boys, escaped from the St. Charles School for Boys, were captured in an attempt to break out of the "bull pen" at the Central Police station today.

The boys are Frank Azeling and Walter Clarke, aged seventeen and sixteen years, respectively. They climbed an elevator cable to the top of the "pen," forced off two boards in the roof, and were crawling through when they were seen by Richard Brennan, the lockup keeper. Shortly after the attempt to escape the boys were taken to Carbondale.

Roy Glessner of Eldena spent the day in Dixon on business. Wynn Seybert of the Chicago road was a caller here today.

STUDEBAKER - THE ALL YEAR CAR

1. Light and perfectly balanced; therefore one with obvious advantage on roads deep with snow.
2. The perfect balance and never failing brake equalizer reduce the tendency to skid on icy pavements.
3. The wonderfully flexible, long-stroke motor gives the stamina and tenacious pulling power for the long, hard pull through deep snow.
4. The steel force-pump oiling system, giving positive lubrication in the coldest weather.
5. The Studebaker car with its light weight and perfect balance is very economical in the use of gasoline and tires, while the long-stroke motor delivers the highest possible ratio of power in relation to fuel consumption.
6. "Balanced Lightness"—a phrase coined for the Studebaker by a New Yorker—makes the Studebaker the easiest car to drive and control. It sticks to the skiddy roads of winter as the thoroughbred sticks to the track.
7. The Studebaker car is equipped with a Studebaker-Schebler carburetor which is heated by exhaust gas and supplied with warm air from the

valve chamber. The supply of vaporized gas passes through a motor-warmed manifold to the cylinders. Perfect carburation in the coldest weather is a distinctive Studebaker characteristic. The location of the gas tank on the cowl makes a short direct gas line to the carburetor. There is no complicated fuel supply system on a Studebaker to get out of order in cold weather.

8. The Studebaker car is equipped with one of the most positive and reliable working electric systems ever put on an automobile. It will positively crank the car even in the coldest weather.

9. The Studebaker-made top, stowaway curtains and windshield fit perfectly, for they are all made for each other. With the top up and with the side curtains and windshield adjusted, the interior of the Studebaker car is almost as comfortable and cozy as a limousine.

10. Beautifully simple and accessible construction throughout makes inspection and adjustment a quick, easy job in zero weather. It also reduces garage and maintenance expense to the lowest possible minimum.

PRICES: Four Touring Car, \$985; FOUR Roadster, \$985; Five-Passenger SIX, \$1385; Seven-Passenger SIX, \$1450. All prices f. o. b., Detroit.

HUGE BUILDING TRUST ALLEGED

Indictments Charge Fortunes
Made in Conspiracy.

LABOR HEADS ARE INVOLVED

Indictments Are Reported Drawn for
Seventy-five Men in Chicago Com-
bine—Heads of American Federa-
tion of Labor Said to Have Been
Powerless.

Chicago, March 20.—A gigantic conspiracy between union labor officials and Chicago capitalists and contractors, which has throttled the building industry of the city and netted the promoters fortunes, is under investigation by the federal grand jury. Indictments have been drawn for seventy-five men, but whether they will be voted and returned still remains in the discretion of the jury.

It is said the grand jury has been privileged to look at certain books belonging to the organization, in which its transactions are shown in detail. On these books appear entries representing the assessments paid by the members of the organization for the right to execute contracts without interference.

It is hinted the system of bookkeeping would interest an expert accountant particularly by the appearance of frequent large items charged off to "entertainment," "incidentals" or some other general expense. How these books came into the grand jury's possession is a secret that may not be disclosed, but the fact has awakened alarm in the minds of not a few men whose names may become public property when the grand jury brings in its report.

Probe Has Been On for Months. So closely are the secrets of the federal grand jury room guarded that it is impossible to learn all the details of the operation of the so-called "builders' trust," but it became known that the investigation has been carried on for more than nine months. The unearthing of the conspiracy followed the investigation of the alleged blackmailing of Chicago contractors by business agents.

That the investigation is near a crisis is indicated by the fact that Samuel Gompers, president of the American Federation of Labor, and Thomas F. Williams, president of the building trades department of that organization, came to Chicago. It is also known that these labor leaders have done everything in their power to disrupt the organization.

Cooks Fast, Slow or "Fireless"

You can cook three ways with this NEW PERFECTION with the insulated oven. By adjusting the flame you get the quickest kind of quick heat for fast baking, or the slow steady kind you need for baking bread and roasting. Seal the oven and turn out the flame and you have a fireless cook stove—the easiest managed, most convenient fireless that was ever invented.

The insulation keeps the heat in the oven and out of the kitchen. This saves fuel all the year 'round and is a blessing in the summer. A spacious cabinet top warms up the dishes, there is ample room behind the burners for keeping food hot.

Burns oil—cheap, convenient, economical. Why carry coal and wood in and dirty ashes out when with a NEW PERFECTION all you need is matches. Price amazingly low—this splendid range and fireless cooker combined costs very little more than a good fireless and less than any coal or wood range that would begin to do the same work.

See this NEW PERFECTION Wick Blue Flame Cook Stove at your dealer's. He has it in two sizes, as well as a big line of other NEW PERFECTIONS. Look for the triangle trademark.

7-page cook book free for five 2-cent stamps to pay for mailing.

HEARD IN DIXON

HOW BAD BACKS HAVE BEEN MADE STRONG—KIDNEY PILLS COLLECTED.

All over Dixon you hear it. Doan's Kidney Pills are keeping up the good work. Dixon people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys, act too frequently, or the passages are painful, scanty or off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Dixon citizen's advice and give Doan's a chance to do the same for you.

Mrs. M. Y. Cox, 614 Van Buren avenue, Dixon, says: "I had a dull heavy ache in the small of my back and it was painful for me to straighten up again. I also had headaches and frequent dizzy spells. I used only one box of Doan's Kidney Pills and they removed the trouble."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cox had. Foster-Millburn Co., Props., Buffalo, N. Y.

CARRANZA SELLS FOOD OF MEXICO

U. S. Authorities Have Two Different Views of Act.

WILL HE FLEE WITH WEALTH?

While His Capital and Many Towns of His Country Are Facing Starvation He Is Gathering and Exchanging Foodstuffs for Gold—Agents Say Cause Needs Money.

Washington, March 20.—Government officials were startled when they were advised by official dispatches that General Carranza is selling for gold large stores of food supplies assembled at Vera Cruz from Mexico City and other towns occupied by his forces.

Whether this means that the first chief is merely raising money to carry on his military operations or is contemplating seeking an asylum in some other country is a matter of speculation.

Selling Foodstuffs.

The official dispatches say that foodstuffs are being put aboard ships at Vera Cruz destined for Europe. It is the understanding that these supplies will be sold abroad for gold. At the same time it is known that Mexico City is in need of food and that there is a shortage of supplies at Vera Cruz due to the refusal of merchants to give orders owing to the uncertainty of political conditions.

The constitutionists' explanation of Carranza's action in sending foodstuffs abroad is that he needs money to further his military operations.

Thieves in Italy Reported to Have Made Big Haul.

Naples, Italy, March 20.—(Via Paris.)—It was learned here that thieves had broken into a mail car in which 225 bags of mail from the United States to points in Germany, Austria and Turkey were being transported. They evidently made a good haul, for several hundred registered letters, nearly all written in Greek or Armenian, were found open.

A number of American bank notes were scattered on the floor of the car.

Nobel Prize For Wilson?

Mobile, Ala., March 19.—The Rev. Andreas Rielland, missionary pastor for Norwegian seamen at this port, has sent a letter to the Nobel committee at Christiania, Norway, recommending President Wilson as a candidate for this year's Nobel peace prize.
